

Topic 3.4: Consent Capacity

Main Ideas

-
- **Consent capacity** is someone's **ability** to make their **own decision about** being in **research**.

-
- Consent capacity can **change**.
 - **How much consent capacity someone needs** to make their own decision will **depend** on the **bad things** that can happen in the study.

-
- We can make **information** about our research more **understandable** so more **people** can **understand** the **good** and **bad** things for themselves about being in a research study.
-
